

Another one that didn't
make the grade

A.I. is too important to be left in the hands of machines

The A.I. we're referring to isn't Artificial Intelligence, it's Ale Intelligence, of course. We're not technophobes, we just don't trust anything incapable of smelling, feeling or tasting to create something as delicately balanced as Landlord. That's why we have five hands-on, Heriot-Watt

trained brewers involved in every step of the process, from barley delivery to filling the cask. This way, we can make sure that every sip of Taylor's is as delicious as humanly possible. Machines may one day take over the world, just be thankful you won't be around to drink their terrible beer.

All for that taste of Taylor's
